Facial treatment

Cleanses, exfoliates and nourishes the skin. A facial involves a deep cleanse, exfoliation, steam, blackhead removal, facial massage, a 10–15 minute mask specifically prepared for your skin type, and finally toning and moisturising. Luxury facials include an extended face, neck, shoulder and arm massage.

Organic Body Polish

The organic body polish encourages the regeneration of skin cells, fostering the development of fresh layers. This stimulation results in the revelation of new, vibrant skin and promotes the emergence of youthful growth. The accelerated growth of new skin cells contributes to a brighter and more youthful complexion.

Manicure & pedicure

Improves the appearance of hands and feet, and involves cuticle work, exfoliation and nail/toe paint. Luxury treatments include a hand/foot massage, mask/paraffin wax treatment and heated mitts/booties.
